

Dynamo system designs, manufactures, QC, technical support and patent by SP (Shutter Precision Co., Ltd.)  
KT Taiwan is Authorized Distributor for SP Dynamo System.

## Ultra Small Dynamo Hub

Our dynamo hubs are not only the lightest, but also the most efficient at converting cyclists' efforts into electrical energy. The lightest model we have weighs in at an unprecedented 360g while attaining an unmatched efficiency of 72%. These dynamo hubs are premium products designed and engineered for the most demanding cycle tourists, commuters and enthusiasts!

## Unique Free Form Optical Dynamo Light

Technical achievements are sometimes not easily expressed but are readily appreciated in use. Our dynamo light boasts innovative optics designed to produce superb lighting performance attaining 35 LUX at 10M. It has StVZO approval.

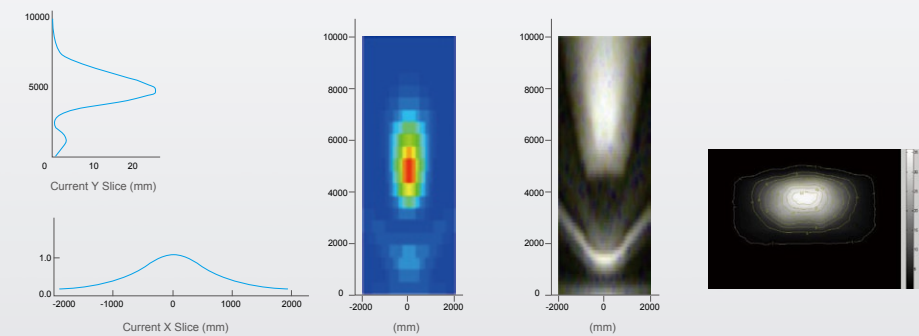

## Fish Eye Lens Dynamo Light

Fashion. Simple. Aerodynamic.

Up to 35 LUX for brightness. Cut off line on beam profile...  
Functional performance for safety is our basic design philosophy.  
Also add design elements on the shape. Stylish & distinctive.  
Make a difference and make riding better.

Model	LS003 Series
Power Input	Bicycle dynamo 6V2.4~3W
LED	CREE LED
Brightness	Up to 35 LUX at 10M
Stand Lighting	3 minutes
Over Voltage Protector	9V
Mounting Options	Fork crown or handle bar
Water resistance	1M
Color	
Weight	90g

## Powerful Dynamo Hub **P-8**

When powerful is not only powerful!

The P-Series dynamo hubs not only provide powerful output, but are also the most efficient on the market attaining 72% at 15km/hr. P-Series dynamo hubs are ideally suited to 26"/700C bikes at 6V3W output. They are very light weight beginning from as low as 390g. This is a dream dynamo hub...
